

## PRODUCT LINE

### Racing line

This is a complete high-quality stainless steel exhaust system made from conical tubes with precision handcrafting and real attention to detail. It's simply the finest exhaust system available for scooters.

These products deliver that unmistakable deep resonant Akrapovič sound. The design enables the maximum output for each specific model of scooter while reducing overall weight for enhanced and useable performance in everyday riding. Each product features Akrapovič's finest carbon fibre end caps. Products from the Racing line are available in an EC Type Approved version.

### Slip-On line

The Slip-On line represents the first step in exhaust system tuning. It is simple to install and replaces a stock muffler. It also offers the best combination of price and performance. With the Akrapovič Slip-On system you will get more power, that unmistakable deep resonant Akrapovič sound, more torque, and less weight. Each product features Akrapovič's finest carbon fibre end caps. Products from the Slip-On line are available in an EC Type Approved version.

Product Code 801103

Concept & Design - studioBracevac.com

## 10 REASONS WHY

- 1 INNOVATIVE DESIGN.**  
Akrapovič is recognized as a leader in exhaust system design. Akrapovič's patented hexagonal shaped mufflers created a storm in the motorcycle aftermarket industry, and their shape transformed the concept of exhaust systems, replacing the standard oval. Our conical design reaffirms our commitment to great design. Akrapovič: there are no better-looking exhaust systems.
- 2 PURE POWER.**  
Our exhaust systems are designed to provide you with higher levels of performance. We call it Pure Power. Reduced weight from the combination of the right materials and the best design to ensure optimum exhaust flow. More horsepower. More torque. More performance. Pure Power.
- 3 THE UNMISTAKABLE SOUND OF AKRAPOVIČ**  
Our exhaust systems sound like no others. Just the right notes at the right times. Deep, resonant sound. The sound of Pure Power. Make your own sound with Akrapovič.
- 4 RACE PROVEN.**  
Racing is in our blood. Akrapovič has successfully supported racing teams since it was founded. Over eighty world champions have relied on Akrapovič when it really matters. It's the choice of champions whether racing on road or offroad. For factory racers or privateers. There's no better proving ground for your exhaust system than the world's most demanding racetracks.
- 5 RESEARCH, DEVELOPMENT & TESTING.**  
We invest heavily in research and development. The best people, new materials, new technology, and new processes ensure that we develop innovative new products. We back this up with rigorous measurement, testing, and quality control to ensure our exhaust systems meet the most stringent EC type-approval standards where required.
- 6 THE BEST MATERIALS.**  
We only use the best materials. Titanium heat-resistant alloys for all the key parts of our titanium exhausts, not just the outer sleeves like many of our competitors. Austenitic stainless steel and carbon fibre which is pre-impregnated and ultralight for high tensile strength and temperature resistance.
- 7 ADVANCED TECHNOLOGY.**  
We are pioneers in developing and using technology to bring real benefits to the rider. Technology and its applications are developed in-house. Hydroforming is one such process, where header tubes are molded by applying pressurized water. The material forms the ideal shape for optimum exhaust flow, with no loss in strength. We are recognized as pioneers in the plastic deformation of titanium alloys and also in precision welding.
- 8 STATE-OF-THE-ART FACTORY.**  
All Akrapovič facilities are state-of-the-art, where quality control is maintained by designing and manufacturing all exhaust systems in-house. This enables the creation of exhaust tubes to our own demanding specifications for maximum performance and quality. In-house laboratories ensure that the most exacting standards for type approval and certification are met.
- 9 PASSION & EXPERIENCE.**  
It's the passion, experience, and dedication of the Akrapovič team that few can match. Twenty years of devotion to developing the best exhaust systems and a desire for perfection in the design, performance, and sound of all our products. All Akrapovič employees work with a passion for our products, for racing, and for satisfying our customers.
- 10 ATTENTION TO DETAIL.**  
It's all in the detail. From the design right through to the packaging. The right looks, the right sounds, and the right power delivery combined with perfect fit and durability. These are the details that matter.

Discrepancies between the appearance in the Catalogue and the actual products or product information may exist. Akrapovic reserves the right to use additional elements for displaying its

products, serving better representation only. Such elements do not represent Akrapovic products and are not subject to advertising, offer or sale nor does the present Catalogue represent an offer made by Akrapovic. For actual information on specific products, their availability and specifications in each country, please contact Akrapovic or local Akrapovic authorized dealer. Not all products are necessarily available at every Akrapovic dealer. Availability of Akrapovic products is subject to Akrapovic's discrepancy, mainly based on

inventory availability and manufacturing lead time. Akrapovic may at any time and at its own discretion change the design, equipment and delivery specifications, without any prior notice. Prices of products are subject to Akrapovic's current, official price list and may be altered without any prior notice. All Akrapovic products must be used in accordance with the respective user's guide, with consideration of all safety instructions and precautions only.

Akrapovic does not assume any responsibility for printing errors or misrepresentations in the present Catalogue and may change any of the information contained herein at any time. Additional information on Akrapovic products may be found at [www.akrapovic.com](http://www.akrapovic.com). Catalogue includes motorcycle products at December 2013. Please check our website as we continually launch new products.

WARNING / USA: Because of the world-wide distribution of Akrapovic d.d. products, neither Akrapovic d.d. nor any of its subsidiaries make any representation that the products comply with the air and/or noise emissions laws, or labeling laws, of any jurisdiction. The purchasers are entirely responsible for informing themselves of the applicable laws where the products are to be used and to comply with those laws.

WARNING / USA: Various U.S. states and the U.S. federal government have individual laws regulating the use of aftermarket exhaust parts and systems, especially as those parts and systems modify, remove, or replace original equipment catalytic converters. Please consult the appropriate laws in your area before installing any aftermarket part or system on your vehicle to ensure compliance with all applicable laws. Neither Akrapovic d.d., Akrapovic America LLC nor any of their subsidiaries

or the sellers of the parts or systems make any representation that any of their parts or systems comply with any such laws. WARNING / California: California laws prohibit the use of any aftermarket exhaust part or system that modifies, removes or replaces original equipment catalytic converters unless the California Air Resources Board has issued an Executive Order regarding such part or system or unless the part or system is exempted by being used only on racing vehicles on closed courses. Neither Akrapovic d.d.,

Akrapovic America LLC nor any of their subsidiaries make any representation that any of their parts or systems has received such an Executive Order or that any of their parts or systems conform with the racing vehicles exemption. The purchasers are entirely responsible for informing themselves of applicable California laws and to comply with those laws.

More Models and exhaust systems can be found on [www.akrapovic.com](http://www.akrapovic.com). \*EC Type Approval is valid if optional catalytic Converter (P-KAT-028) is mounted.
